

## ABHES Placement Rate Methodology

The placement rate is determined by using the ABHES required method of calculation, for the reporting period July 1 through June 30, as follows:

$$\text{Placement Rate} = (P)/(G-U)$$

Acronym	Term	Definition
P	Placed graduates	Those employed in a position wherein the majority of the job functions are related to the skills and knowledge acquired through successful completion of the training program.
G	Total graduates	
U	Graduates unavailable for placement	Only as documented: health-related issues, military obligations, incarceration, continuing education status, or death. Institutions must have on file additional documentation and rationale to justify graduates identified in this category. Examples of documentation may include but is not limited to a doctor's note, military orders, arrest documentation, enrollment agreement, acceptance letter, or death certificate.
